## **Your10&95 plans I-10 WB overnight lane closures, 6/22-6/23 Interstate 95 southbound traffic will detour to Forest Street to I-10 WB**

**Jacksonville** – Your10&95 interchange operational improvements project will have multiple lane closures on Interstate 10 westbound for roadway construction just before Stockton Street over the CSX railroad area Friday, June 22 and Saturday, June 23 from 8 p.m. to 5:30 a.m., weather permitting. The single and full lane closures will affect motorists traveling on Interstate 95 northbound and southbound wanting to access Interstate 10 westbound.

For motorists wanting to access Interstate 10 westbound from Interstate 95 southbound, only one lane will be available after the Stockton Street exit. For motorists who use the Myrtle Street bridge, they can take the detour using Forest Street/Riverside Avenue exit 352A, then make a right onto Forest Street, a left onto Margaret Street and a left onto Irene Street to connect them with Interstate 10 westbound.

There will also be the nighttime ramp closure of the Forest Street on ramp to Interstate 10 westbound during that same timeframe and motorists will be detoured on Forest Street to Margaret Street to continue onto Edison Avenue to Irene Street to the Interstate 10 westbound on ramp.

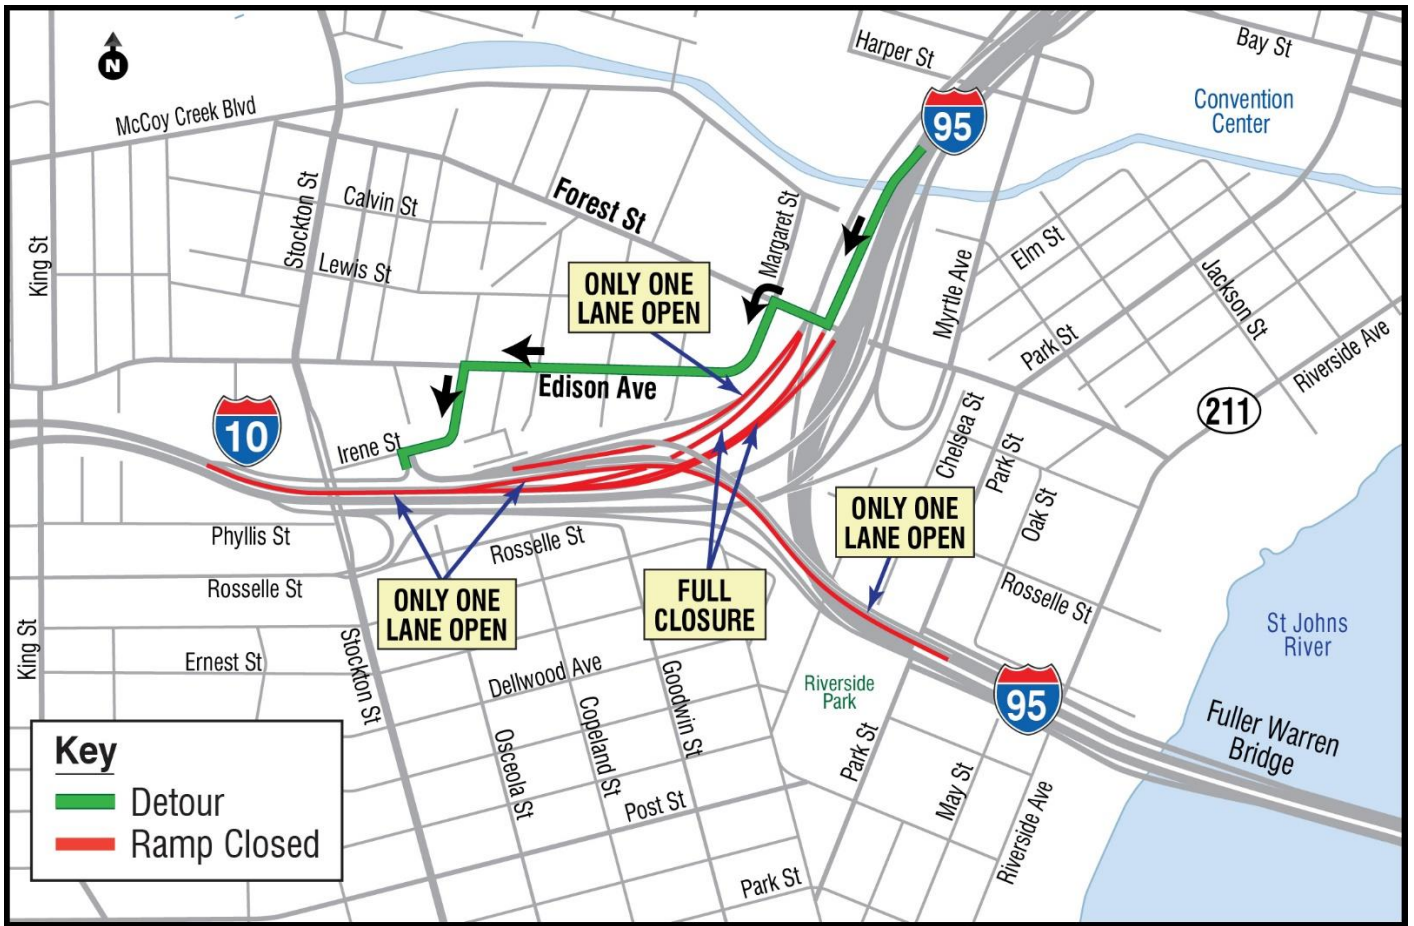

Motorists using Interstate 95 northbound will only have one lane open to Interstate 10 westbound. Please see attached map.

Your10&95 project began in May with completion anticipated in summer of 2020, depending on weather and unforeseen delays.

FDOT hired Archer Western as the contractor to complete this project for \$126 million.
